

# Secure your space: Customisable security cameras tailored to you

A wide range of NDAA compliant CCTV security cameras to secure any premise, with video analytics to enhance safety and improve business insights, and an open platform for easy integration into your existing security infrastructure.

## CCTV solutions for every environment

Our broad range of CCTV security cameras are built with intelligent analytic capabilities, stacked with powerful camera features to meet your specific challenges and easily work with existing systems.

Our smart and versatile solutions are used nationwide, securing people, property and data across a range of industries including retail, transportation, education, banking, healthcare, hospitality, airports, government and more.

**NDAA**  
Compliant

### Advanced analytics for video security

Providing real-time alerts, using analytics to quickly detect and categorise people and vehicles, significantly reducing false alarms and identifying real concerns.

### Seamless integrations

CCTV cameras that are built on a flexible, open platform designed to work with any video management system whilst complying with NDAA restrictions.

### Flexible video management systems

An intuitive, scalable, and secure platform that can support up to tens of thousands of indoor and outdoor CCTV cameras. Adhering to the strongest level of security, encryption and data sharing procedure, you can rest assured your CCTV and video security solutions are safe,

## A range of durable cameras to suit you

### Fixed IP Cameras

Provide focused coverage exactly where you need it

### PTZ Cameras

Monitor large areas with a single camera providing wide and close-up camera views.

### Panoramic Cameras

Gain total situational awareness with vast area coverage across multiple directions.

### Specialty Cameras

Maintain reliable coverage even in harsh environments with our reliable solutions.

## Relax, let us handle it

Our in-house Category II NSI Gold Standard Alarm Receiving Centre (ARC), Marlowe Connect, can monitor your system and provide uninterrupted 24/7 surveillance so you can have the ultimate peace of mind that your site is protected.

Advanced AI detection analytics instantly and reliably alerts our monitoring station to suspicious activity occurring on your premises. Industry leading image clarity allows our operators to identify the nature of activity and escalate to a police response when necessary.
