A flexible security solution to keep pace with your ever-changing security needs.

Hghly-effective temporary surveillance coverage to assist in the reduction of crime, vandalism, fly tipping and anti-social behaviour.

Stay agile. Stay secure.

Proactive site protection & monitoring 24/7

Lightning fast relocation

Versatile & flexible to suit your needs

Minimal training to deploy, redeploy & operate

High visibility acts as a deterrent

No power required, no network required

High quality images & advanced AI analytics
4G connectivity

Designed with speed and versatility in mind, our Redeployable CCTV systems offer easy installation and cost-effective security, ensuring continuous site protection around the clock.

This ideal temporary surveillance solution is suited for a wide range of applications including construction sites, rail, councils, vacant properties, live events, parking facilities and more.

No power,
No network,
No problem.

With the option to power the camera by a solar panel and connectivity through 4G, these cameras are ideal for areas that are not suitable for laying wired network and electric supply lines.

The camera sends data to a communication station, then to the security monitoring centre, meaning both monitoring and management activities, like viewing footage live, can be done remotely over the 4G network.

Remote connectivity & monitoring

Monitor your system via a range of mobile applications and Windows 10. All systems have the option to send email alerts and notifications including snapshots of the alert.

Relax, let us handle it

Our in-house Category II NSI Gold Standard Alarm Receiving Centre (ARC), Marlowe Connect, can monitor your system and provide uninterrupted 24/7 surveillance so you can have the ultimate peace of mind that your site is protected.

Advanced AI detection analytics instantly and reliably alerts our monitoring station to suspicious activity occurring on your site. Industry leading image clarity allows our operators to identify the nature of activity and escalate to a police response when necessary.

Crystal clear surveillance

Advanced AI detection analytics provide higher flexibility and accuracy, with applications including facial recognition, ANPR, metadata, people counting, and traffic data.

Low bandwidth streaming means you benefit from high-quality live video over wireless networks with zero latency and full PTZ responsiveness.

With a built in microphone and 2-way audio, you can play pre-recorded messages for intervention when activations are detected within the camera, offering a strong deterrent to crime.
